

Why go online?

Superior publication

- Viewed and/or downloaded and printed, digital documents retain their original appearance, with color images and graphics and crisp, clear text

Faster publication

- Online submissions are currently being processed twice as fast as paper or FTP submissions

Easier submission for students

- Students log on, provide information, and upload their manuscript to your school's administrator
- All instructions and guidance are a mouse click away

Great for distance programs

- Connects your off-campus students to you, and you to UMI

Easy for administrators

- Administrators log on to do degree clearance, review and manage submissions, communicate with students by email, and send on to UMI
- The system keeps track of all actions
- No more paper to store, keep track of, and ship

Can eliminate bookkeeping

- If it works for you, students can pay all fees online with a credit/debit card

Great for libraries

- Free delivery of the pre-print to libraries
- **NEW!** They can use this copy in their digital repository

Who's already online?

More than 150 institutions

- Currently live or in set-up or test mode

Ask your peers

- Most are happy to share their experience

Full overview offers:

- System description, how your site is customized, and the processes for students and administrators

Demo site offers the opportunity to play the role of:

- A student submitting their dissertation/thesis
- An administrator reviewing the submission, clearing the degree, and sending the dissertation/thesis to UMI

Making the transition

Easy

- Nothing to buy, nothing to download
- We build your site using information you provide
- We train you over the phone
- Support is a phone call or email away

Fast

- Your customized website can be built in as little as a week
- You can set up, train, test and pilot inside a semester or over the summer

How do we get started?

Plan ahead

- There are usually about 18 to 24 schools in line for set-up
